

STELLAR

ALUMNI

NAME

Danny Kemp

CAREER

Subcontracts Manager at L3Harris

EDUCATION

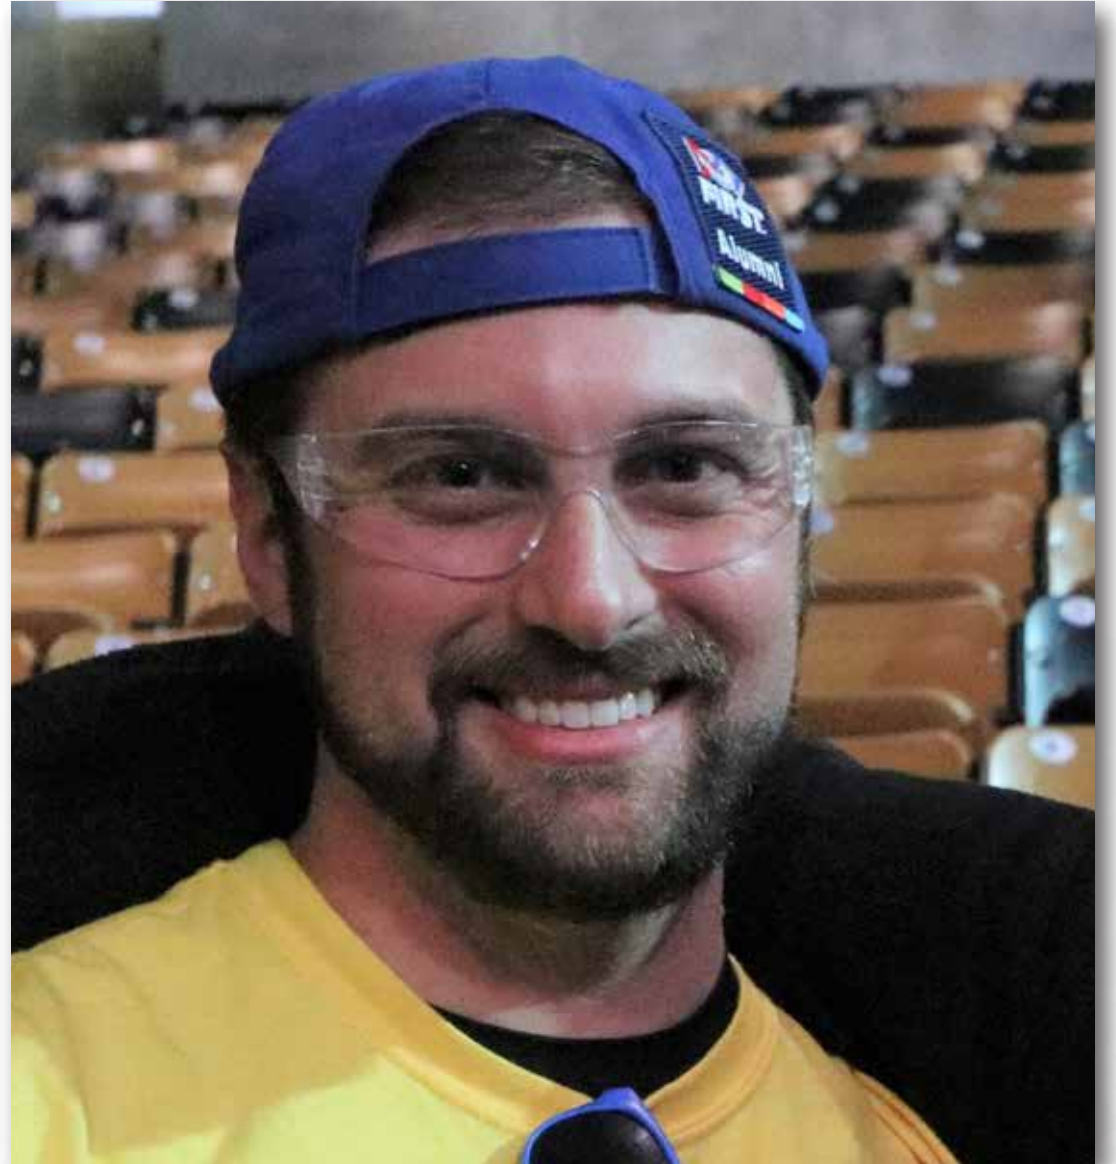

University of North Florida

TEAM

386 Voltage

YEAR(S) ATTENDED THE ORLANDO/ FLORIDA REGIONAL AS A STUDENT

2006-2008

WHAT HAVE YOU WORKED ON IN YOUR CAREER THAT YOU ARE MOST PROUD OF?

Managing people and materials to achieve on time and on budget deliverables of goods and services. I managed a four million dollar materials budget to manufacture a SiriusXM satellite which saved the company about one million dollars. I insured on time materials for the construction of the F35 fighter jet and the Federal Aviation Administration's ground telecommunications infrastructure.

HOW HAS *FIRST* IMPACTED YOUR LIFE PERSONALLY OR PROFESSIONALLY?

I was an at-risk youth without educational direction until a teacher got me interested in *FIRST* Robotics. I learned leadership, communication and time management skills, and the value of finding positive friendships. As a result, I wanted to work in a technical environment. Robotics provided me a place to be. I now mentor team Voltage - it feels good to give back to the team that gave so much to me. I have founded and created the *FIRST* Alumni organization called *FIRST* Space Coast Alumni (Brevard County organization). Members provide mentoring and volunteers for all *FIRST* teams and events in Brevard county. We are currently applying to become a 501(c)(3) nonprofit organization.
